

**BÖHLER S290**  
**MICROCLEAN®**

 **BÖHLER**  
EDELSTAHL

# HIGH SPEED STEEL. PRODUCED BY METHODS OF POWDER-METALLURGY, ESPECIALLY FOR HIGH-PERFORMANCE-CUTTING-TOOLS.

## PROPERTIES

High speed steel produced by powder-metal-lurgical methods with:

- **Excellent hot hardness**
- **Excellent wear resistance**
- **Excellent compressive strength**
- **Very high hardness (up to 70 HRc)**

The BÖHLER PM-technology of the 3<sup>rd</sup> generation imparts to the material also very good toughness and machinability, e.g. highly satisfactory grindability.

## FIELD OF APPLICATION
